11 January 1983

MEMORANDUM FOR: Director of Central Intelligence

FROM: SA/DCI/IA

SUBJECT: NSC Meeting--Visit of Japanese Prime Minister,
14 January 1983

1. A meeting has been called for Friday to discuss the upcoming visit of Prime Minister Nakasone.

2. You will recall that at the previous two Clark meetings the support for the Nakasone visit was on the agenda but not discussed. As Dave points out in his note, what the NSC staff really wanted was a paper that could be used as the basis for an NSC discussion of Nakasone's likely objectives. Dave Gries produced such a paper.

3. To support your presentation at the meeting Dave plans to produce a set of Talking Points covering Nakasone's objectives, Japanese view of the trade problem, and Japanese defense issues. In addition, the DDI is preparing three papers, as noted by Dave in his note.

4. I am giving this incomplete package to you now in case you wish to refer to it during your meeting with Clark tomorrow. I will add the remaining material as soon as it is available.

5. Please let me know if there is anything else you would like to have in anticipation for this meeting.
